5. East Portland Transportation Updates:

Powell Blvd. Improvements Start: Tree Removals and Utility Relocations on Outer Powell Begin November 2018. Before roadway construction can begin, things like tree removals and utility relocations will occur along Powell Boulevard from SE 122nd Avenue to SE 136th Avenue. What can be expected from to early 2019?

- Contractors will work their way through the corridor removing trees from areas where future sidewalks and bike lanes will be built.
- Expect traffic delays. Construction will be intermittent. Flaggers will be in place to direct traffic. If needed, the contractor may hold traffic up to 10 minutes if they foresee a safety risk when removing tree limbs and trunks.
- Tree removal work will occur during weekdays from 7 a.m. to 10 p.m. and may work weekends.
- To minimize impacts to the traveling public, Portland General Electric (PGE) will perform utility relocation activities along SE Powell Boulevard at night from 8 p.m. to 6 a.m. However, work along SE 136th will include daytime hours from 7 a.m. to 5 p.m. Access will be maintained but at a limited capacity. Expect traffic and delays.
- Driveway access will be maintained or temporarily accommodated during construction.
- No on-street parking will be permitted during construction. When construction is complete, sidewalks and bike lanes will occupy the area currently used for parking on the street.

- During certain activities, portions of the sidewalk and bike lanes may be temporarily flagged or redirected to protect people from construction activities and allow the contractors space to load and haul debris. Additional guidance and signage will be provided on site during these activities.
After tree removals and utility relocations are complete, roadway construction is anticipated to start in Spring 2019. Learn more at www.OuterPowellSafety.org. For questions and inquiries, contact a project team member: Ellen Sweeny, ODOT Community Affairs, 503-731-8230, ellen.sweeney@odot.state.or.us and Cassie Davis, HDR Public Involvement, 503-727-3922, cassie.davis@hdrinc.com

Interstate 205 – East Portland Freeway – Glenn Jackson Bridge to Johnson Creek Boulevard: This project will pave 9 miles of I-205 between Johnson Creek Boulevard and the Glenn Jackson Bridge, including some ramps, build auxiliary lanes in three locations, install ODOT RealTime electronic signs and make pedestrian improvements at Glisan Street. Traffic Impacts: Nighttime double lane closures in both directions from 8 p.m. to 5:30 a.m. Periodic on- and off-ramp closures for striping. For more information: www.i205construction.org

Halsey/Weidler Street Improvement Project: Construction is currently underway on the Halsey/Weidler Street Improvement Project and is scheduled to be completed in summer 2019. This project includes pavement reconstruction on NE Halsey, traffic signal upgrades at 102nd and Halsey/Weidler and pedestrian and bicycle safety improvements along NE Halsey and NE Weidler Street between NE 102nd and 112th Avenue.

East Portland Active Transportation to Transit Project: Scheduled to begin construction in spring 2019. The project will improve pedestrian safety and access along SE Division Street between 102nd and 157th by infilling missing sidewalk, building ADA-compliant curb ramps and driveway connections and installing three new signalized crossings. This project will also install the 130's Neighborhood Greenway, a new north-south bicycle and pedestrian route between the Springwater Corridor Trail and the I-84 Multi-Use Path. Keep an eye out for more info about this project in the coming months!

NE 102nd Pedestrian Crossing Planning Effort: In partnership with Prosper Portland, the Portland Bureau of Transportation is working to find better ways to link the Gateway Transit Center and the Halsey-Weidler Business District. City staff will work with the Gateway community to identify one or two locations to build safer pedestrian crossings on NE 102nd Avenue between NE Halsey St and NE Glisan St. The project team has identified preliminary locations and evaluated each location's feasibility. They are reaching out to the community to understand which of the crossing locations would most help people safely get around. This planning work is funded by a \$100,000 agreement with Prosper Portland that will also look for funding sources for the crossings (such as Local Improvement Districts, Transportation System Development Charges and redevelopment), reexamine the [Gateway Master Street Plan](#), suggest improved connections through the Gateway Shopping Center, and provide technical assistance to community groups who have been awarded grants for Gateway Identity Projects to improve the sense of place in Gateway.

East Glisan Street Update: Portland Bureau of Transportation is in the process of completing additional traffic modeling and considering street cross-sections for NE Glisan between 102nd and 162nd. We have also reviewed, and are taking into account, comments from residents from our online survey and open houses that occurred summer 2018. PBOT expects to make decisions about the cross section of NE Glisan spring 2019. We are appreciative of the many residents who took time to provide input on this project and we are using this opportunity to do further analysis of the corridor.

15. Single Family Housing Repair Loans & Grants in Oregon -

Department of Agriculture: **On-going**. Also known as the Section 504 Home Repair program, this provides loans to very-low-income homeowners to repair, improve, or modernize their homes or provides grants to elderly very-low-income homeowners to remove health and safety hazards. Loans may be used to repair, improve or modernize homes or remove health and safety hazards. Grants must be used to remove health and safety hazards <http://www.rd.usda.gov/files/fact-sheet/RD-Factsheet-RHS-SFH504HomeRepair.pdf>

16. Portland Brownfield Program – Accepting applications for these grants on a rolling basis until funds are exhausted. The Portland Brownfield Program is a free resource for property owners, developers, and community members who have questions or concerns about potentially contaminated land, including buying or selling property, regulatory process, available funding, gardening on urban sites, and environmental assessment. Bringing brownfields back into active use has many benefits: protecting water quality, decreasing vacancy, reducing hazards to human health and the environment, increasing the tax base, and providing new neighborhood amenities. The Brownfield Program currently administers two grants from the Environmental Protection Agency: Involve and benefit a diverse, broad group of people; A \$400,000 grant to assess contamination on properties around the city, **with a target area of East Portland**; A \$1 million grant to provide loan fund (RLF) for cleanup on private properties. There are three criteria for eligibility: The current property owner cannot be responsible for the contamination; The project must demonstrate financial need for funding; The proposed project must demonstrate community benefit, such as new jobs, new goods/services/amenities, reduction of a health hazard, or returning a long-vacant site to reuse. [Click here to download the assessment application.](#) For More Information, Contact [Jenn Bildersee](#) at 503-823-7764.

17. County Opportunity Grants - Oregon Parks & Recreation Department HOUSING OPPORTUNITY: **Closing Date: rolling basis.** This grant is for Oregon counties to purchase land for campgrounds, to improve or plan camping areas, and other, similar purposes. The grants come from a portion of RV projects yearly since 1983. For more information, visit:

18. Public Works and Economic Adjustment Assistance Programs –

Ongoing at <http://www.grants.gov/web/grants/view-opportunity.html?oppld=279842> . The Economic Development Administration is soliciting applications from rural and urban areas to provide investments that support construction, non-construction, technical assistance, and revolving loan fund projects. EDA provides strategic investments on a competitive- merit-basis to support economic development, foster job creation, and attract private investment in economically distressed areas of the United States.

19. Historic Parkrose Storefront Improvement Grants: There are no application deadlines, instead we will be reviewing grant applications monthly throughout the year. Grants will go to business and property owners within our service area (NE Sandy Blvd between 99th and 121st Ave). The goal of the storefront improvement grant program is to assist business and property owners in enhancing the visibility and appearance of their business. Examples of improvement projects covered by the grant include, but are not limited to, exterior paint, storefront lighting, signs, door/window replacement, and planters. Grant amounts range from \$500-\$4,000 and require a minimum dollar-for-dollar match. For information on applying for a storefront improvement grant, contact District Manager Mingus Mapps at mingus@historicparkrose.com.

20. METRO Natural Areas sponsorship opportunities: No Specific Deadline. Do you have an event, activity or project that aligns with Metro's mission and goals? Metro has limited sponsorship funds to benefit a diversity of residents and businesses, address inequalities that impact our communities and inspire inclusive and innovative solutions to challenges of making Portland area a great place for everyone. More information [here](#).

21. Karma for Cara Foundation Micro-grants - Youth Changing the World: Closing Date: ongoing. The Karma for Cara Foundation is encouraging youth 18 and under to apply for funds between \$250 and \$1,000 to complete service projects in their communities. Whether it is turning a vacant lot into a community garden, rebuilding a school playground or helping senior citizens get their homes ready for winter, they want to hear what project you're passionate about. For more information, visit: <http://karmaforcara.org/get-involved/>

22. Common Council Foundation Grassroots Exchange Fund: GXF grants are distributed on a monthly cycle February through November (no grants are distributed in December and January). GXF Application and Guidelines: <http://www.commoncounsel.org/Grant+Programs>. Applications must be submitted by the first Monday of the month. The program strives to meet three central goals: To strengthen the ability of community organizations to participate in public debates; To strengthen key cross-region and cross-sector movements; and To contribute to collaborative policy victories in the realms of social, environmental and economic justice. The first step in applying to the Grassroots Exchange Fund (GXF) is to thoroughly review the grant-making criteria and priorities in order to ensure that your organization is a good fit for the GXF grant program (this will save both your time and ours). Organizations that meet the eligibility and funding criteria are encouraged to submit the GXF Application Form.

23. EPA Grant Opportunities: Environmental Protection Agency: <https://www.epa.gov/grants>.

24. Technical Assistance for Communities Affected by Brownfields – Rolling/Apply any time: https://gallery.mailchimp.com/f3b5536564762ab0a74bc4292/files/GWUSA_k6_Call_for_LOI.pdf . Groundwork USA is offering direct assistance, from experienced practitioners on a range of topics and strategies. An appropriate GWUSA staff member or consultant will be assigned to your community to provide consultation over a 12-month period, with possible extension of direct support into an additional year. Non-profit organizations, local government bodies and tribes whose communities are impacted by brownfields are all eligible to apply.

25. Local Systems: *Ongoing.* The Kresge Foundation is funding Creative Placemaking initiatives that challenge the norms and ways of working within city-wide systems, and support more adaptive practitioners. Proposals are welcome from organizations that: Infuse creativity (arts, culture and community-engaged design) into comprehensive community development and urban planning practices; Build on a community's assets and distinctive attributes, recognizing and highlighting narratives of place; Are cross-sector and cross-disciplinary – collaborations of multiple partners from different sectors (public/private) and disciplines (arts, health, environment, human services); and Take root in economically distressed

communities and ensures that residents with low incomes participate.

26. Northwest Health Foundations: [Open Opportunities](#). Check out open funding, partnership and learning opportunities on our website. [See what's available](#).

27. [Healthy Housing and Neighborhoods Initiative](#) – *ongoing*. The Kresge Foundation is working to advance place-based, community-driven efforts to promote health and remove barriers to opportunity for people in low-income neighborhoods. This is an open grant opportunity for organizations working to address: Policies, systems change and communication to connect health and housing; Policies that promote healthy housing and mitigate the impacts of substandard housing; and Innovative investments that connect community development, health and housing.

28. [Accelerating Community-centered Approaches](#) – *ongoing*. The Kresge Foundation helps speed the adoption of programs, practices and policies across health and supportive sectors that address the conditions that promote the health of communities. Proposals are welcome from organizations that: Take advantage of the opportunities within health reform to employ new models of shared resources and accountability for improving population health; Systematically incentivize and reward primary prevention – for example, by reinvesting downstream health care savings in effective community prevention; Share and use data from multiple sectors to inform strategies, measure progress and refine interventions; Have the potential to inform practice and policy more broadly; Demonstrate community engagement and health equity.

29. [Place-based Initiatives](#): *Ongoing*. The Kresge Foundation supports established Creative Placemaking practitioners that work in disinvested communities and seek to improve the bedrock conditions of low income people. Proposals are welcome from organizations that: Infuse creativity (arts, culture and community-engaged design) into comprehensive community development and urban planning practices; Build on a community's assets and distinctive attributes, recognizing and highlighting narratives of place; Are cross-sector and cross-disciplinary – collaborations of multiple partners from different sectors (public/private) and disciplines (arts, health, environment, human services); and Take root in economically distressed communities and ensures that residents with low incomes contribute to, engage in, benefit from, and are empowered by activities.

33. Compton Foundation Grants For Climate Change, Peace, and Reproductive Rights: Grants proposals by invitation based on inquiry:

Send a letter asking if they might be interested in your project. The Compton Foundation supports work in climate change, peace and national security, and reproductive rights and justice. Within those core areas, the work must be a match with our transformative leadership and courageous storytelling approaches. The foundation is willing to support work that uses art to spark social change, whether that means directly supporting professional artists who are working toward social or environmental change, funding organizations that bridge artistic disciplines and activism, or groups exploring art as an organizing methodology. Projects can be from a variety of artistic disciplines, including drama, film, and writing, although music and visual art are most likely to be prioritized.
